

feels

The XC17 is an efficiency expert.

It's easy to feel comfortable with loved ones in your home when the air around you is perfectly wonderful.

The **XC17's outstanding operation** comes from a composite high-performance fan design combined with an exclusive motor innovation that improves efficiency while reducing sound. Durable construction ensures long-lasting performance backed by numerous features, including advanced self-monitoring, to make the XC17 part of the ideal air conditioning system for your home. Careful engineering ensures the XC17 reliably fills your home with comfort while operating with enhanced efficiency—and at extremely low sound levels.

*Efficiency claim based on comparison of single-stage air conditioning products' SEER as published in AHRI (as of May 2014). Actual system combination efficiency may vary. Consult a Lennox Dealer or AHRI (www.ahridirectory.org) for exact system efficiencies.

**Air conditioners/heat pumps have sound ratings established per AHRI's test standard: AHRI 270-2008. Size for size, as a product family, these air conditioners have the lowest published sound ratings of any major U.S. brand of air conditioning/heat pump equipment.

efficiency that feels wonderful

Efficiency makes an impact on your utility bills

As the **"most efficient single-stage air conditioner you can buy,**"** the XC17 minimizes energy usage to help the environment. Plus, **efficiency ratings of up to 18.00 SEER** help lower energy bills. Those savings can add up to hundreds of dollars over five years.

Quieter than any other cooling system

Lennox' patented SilentComfort™ technology and unique design make the XC17 **"the quietest single-stage air conditioner you can buy.**"**

SEER stands for "Seasonal Energy Efficiency Ratio" and is a measure of the cooling efficiency of air conditioners. The higher the SEER, the greater your energy savings. Typical SEER ratings start at 13.00, but the XC17 carries ratings as high as 18.00.

Savings chart shows the 5-year savings you can expect from a 18.00 SEER air conditioner vs. existing equipment with a 10.00 SEER rating. The regions used to calculate household fuel and utility costs reflect a cross-section of cities in the U.S. In addition to geography, cooling costs indicated are based on 3-ton capacity specifications, with 1,600 cooling hours per year and 12.29 cents per kWh (Source: EIA National average electric rate, August 2014 YTD). Your actual costs may vary depending on the weather, local fuel rates, system settings and your personal lifestyle.

XC17

The most efficient single-stage air conditioner you can buy*

The air-conditioning system that's a perfect fit.

Exclusive motor and fan design for an added performance edge

The XC17 has been engineered for the toughest environments, from the harshest winters in the north to the extreme heat in the south. The exclusive SilentComfort™ motor uses the **latest in electronic sensor technology** to optimize overall system performance. Intelligent motor design detects a blocked fan and will automatically compensate in an effort to protect the motor or clear the obstruction. The fan then resumes normal operation, keeping the air conditioner running at peak efficiency.

A friendlier refrigerant

The XC17's scroll compressor uses the **chlorine-free R-410A refrigerant**, which meets the U.S. Environmental Protection Agency's most stringent environmental guidelines. Lennox was one of the first HVAC manufacturers to develop R-410A as an alternative to R-22 (freon).

Customized comfort meets your needs inside and out

The XC17 is also compatible with the Humiditrol® whole-home dehumidification system for improved air quality inside your home. By reducing humid conditions in your home, the Humiditrol system minimizes mold and mildew problems as well as airborne pollutants.

Choosing products like the XC17 can improve your comfort, while also helping you save energy and money. For other ways to make your home more efficient, visit ItPaysToLiveSmart.com.

The simplest way to bring money-saving **SOLAR POWER** into your home

The SunSource® Home Energy System reduces the amount of electricity needed from your utility provider to put you in control of your utility bills. This energy-saving system harnesses solar energy and uses it first—before using electricity from the utility company—to power your air conditioner. The solar power that's collected can also operate other appliances and electronics when the heating and cooling system is not in use. What's more, if the SunSource system generates more solar power than is needed, that power will be sent back to the utility company, possibly entitling homeowners like you to a credit. Ask your Lennox Dealer for more information.

We're obsessed with the pursuit of creating perfect air, and doing so with absolute efficiency.

Since 1895, Lennox has been on a continuous quest to reinvent home comfort. Perfect air is our purpose and our obsession. Today, that pursuit takes shape in many innovative ways: precise and energy-efficient air conditioners, the quietest high-efficiency furnaces, heat pumps, Wi-Fi-enabled thermostats, air handlers, air cleaners, small-space comfort systems, boilers and more.

Peace-of-mind protection

The XC17 comes with a 10-year limited warranty on the compressor and all remaining covered components.*

Dealers you can count on

You can trust Lennox Dealers to design the right system for your home, install it properly and keep it running perfectly for many years to come. Because Lennox has more than 6,000 dealers throughout North America, you can rest assured there's a dealer near you.

Industry-leading energy innovation

The XC17 is the most efficient single-stage air conditioner with a rating of up to 18.00 SEER. Compared to conventional cooling systems, it can save you hundreds of dollars on your utility bills each year (see chart on page 3). As one of Lennox' most efficient and advanced energy innovations, it carries a green *Signature* badge. Beyond cost savings, this badge gives you peace of mind in knowing the XC17 is a better choice for the environment.

SilentComfort™ Fan Grille – Uses patent-pending, vortex-suppression technology to reduce sound of airflow exiting unit, providing a quieter environment outside your home.

SilentComfort Outdoor Fan Motor with Composite Fan Blades – Provides extremely reliable starting and running performance, even under the harshest outdoor conditions.

iComfort®-Enabled Technology – Allows the XC17 to exchange information with other home comfort system components and make adjustments as needed to optimize performance and efficiency.

High-Efficiency Outdoor Coil – Provides exceptional heat transfer and low air resistance for high-efficiency operation that can lower your cooling bills.

Dependable Scroll Compressor with SilentComfort Technology – Provides smooth, efficient and reliable operation.

Humiditrol® Compatible – Manages the moisture in your home’s air for greater comfort and improved indoor air quality.

SmartHinge™ Louvered Coil Protection – Allows quick, easy access to interior components from all sides, so the unit can be serviced in minimal time.

Note: Due to Lennox’ ongoing commitment to quality, all specifications, ratings and dimensions are subject to change without notice. Always verify actual system efficiencies through AHRI or by visiting the AHRI ratings database at www.ahridirectory.org.
 *Applies to residential applications only. See actual warranty certificate for details.

Lennox is proud of the fact that these products have earned the Good Housekeeping Seal.

A system of innovative products, all working perfectly together.

Every Lennox® product is a standout on its own. Working together in one system, Lennox products fill your home with air that's perfectly heated and cooled, and they do so with absolute efficiency.

Why choose a complete system?

Indoor and outdoor units can only operate at their peak potential when they are compatible with each other in type and size, as well as performance capabilities. By combining Lennox products that are made to work together, you can create an ideal system for your home.
